

Careers at Uber

We ignite opportunity by setting the world in motion.

Build together, grow together

At Uber, we're reimagining the way the world moves. From how you get home from work, to how you eat meals, or how you move huge shipments of anything, the work we do is shaping the future of mobility and changing the way people live.

About our teams and what you could be working on!

Accounting Operations

About us:

- We analyze and record transactions necessary to produce timely and accurate financial statements. Our teams are organized by function and include Revenue Operations, Technical Revenue, GL Accounting, Fixed Assets, Leasing, Collections & Disbursements, Transfer Pricing, Consolidations, and Projects
- SMEs for M&A Integration
- Ownership & governance over Chart of Accounts (COA) and Monthly Close Calendar
- Lead transformational projects

What you'll be working on:

- Ensure complete and accurate accounting of transactions.
- Prepare journals, analyses, and reconciliations.
- Complete month-end close processes ensuring timeliness and accuracy.
- Prepare month-end close analyses, schedules, and responses to inquiries from Accounting and FP&A teams.
- Support transformational and enhancement projects aimed at increasing efficiency, scalability, and automation by running various ad hoc analyses, and participating in UAT's.
- Performance and evidencing of SOX controls.
- Work cross-functionally with operations, legal, marketing, product, and other operational departments to gain an understanding of transactions and allow for accurate accounting of them.
- Support external audits (US GAAP and statutory) – ensuring timely responses and oversight of the gathering and submission of supporting documentation.
- Assist in developing and updating Desktop Procedures (DTP's).

Critical skillset: Solid understanding of Accounting, proficient in Excel, systems savvy, analytical, problem solving, critical thinking, excellent communication skills, sound judgment, and attention to detail
